

AI Prompting Academy -- One-pager

MVP workplace AI LMS for prompt craft. Rawle Arneaud / @Studmuffin01

PROBLEM

Copilot is rolled out; drafts stay mushy, invented, or unusable upstairs.
Tip threads and long MOOCs do not create an on-the-job habit.

PRODUCT

- SCORE curriculum /Prompt Like a Pro/ in an Academy LMS shell
- Modules, quizzes, baseline to retest, progress tracking
- Individuals + team seats at /pricing

WHY NOW

GenAI is mandated at work; skill gap is method, not model access.

PRICING /pilot hypothesis/

Individual: \$29 one-time / \$9 mo | Team: \$199 / 10 seats

TRACTION

- Live: <https://prompt-like-a-pro-red.vercel.app>
- Customer discovery: 35 survey responses /13-15 Aug 2026/
- 11 pilot leads asked to be contacted
- Product users: venture metrics in PR /survey is not users/

ASK

20 minutes for deck/pricing feedback, or intro to an L&D buyer.
