

AI Prompting Academy

Workplace AI learning for prompt craft

Rawle Arneaud | @Studmuffin01

Hult Cohort Program | Summer 2026

Problem

Professionals have Copilot. Prompts still fail.

- Vague asks -> mushy drafts
- Invented certainty -> unsafe to send upstairs
- Rewrites erase the time AI should save

Insight

The skill gap is METHOD, not model access.

Teams need a short, repeatable way to ask.

Solution / Product

AI Prompting Academy -- MVP workplace AI LMS

First course: SCORE /Prompt Like a Pro/

- ~60 min curriculum, quizzes, progress
- Individual + team access at /pricing

Customer discovery

35 survey responses /13-15 Aug 2026/

- Pain: generic output, rewriting, low trust, weak prompts
- WTP: mostly free / under TT\$150; minority TT\$150-300
- 11 asked to be contacted /pilot leads/

Insight: gap is prompt effectiveness -- not AI access.

Survey is not users and not investor engagement.

Business model

Individual: \$29 one-time / \$9 mo /hypothesis/

Team: \$199 / 10 seats /hypothesis/

Enterprise: custom /roadmap/

Traction

- Production app live
- Discovery packet in repo [/survey-summary.md/](#)
- Venture user metrics: see PR snapshot

Ask / Close

20 minutes for feedback or an intro to an L&D buyer.

Prompt craft for Copilot that managers can forward.
